ACM ICPC ASIA CHENNAI REGIONAL CONTEST 2017 SELECTION RULES

The selection procedure of ACM ICPC Asia Chennai Regional Contest 2016 is same as 2015. Here I am posting it again for your reference

1. All the teams which have not solved any problem are eliminated.
2. All the teams found to be involved in plagiarism are eliminated.
3. From the remaining, the top-ranked team from each Institute is taken and these teams are sorted by their ranking. Top 90 teams from this list is selected for onsite – CATEGORY A.
4. Sort all the remaining teams (ie. all teams which have solved at least 1 problem, and have not been selected in Step 2) by their ranking, and select the top 30 teams, **but ensuring that no Institute has more than 5 teams being selected in total.**
5. In total, 120 teams will be selected, and no institute will have more than 5 teams representing it.
6. Two teams from Hindustan University which has solved at least one problem in first round online contest will be selected as host slot without disturbing the 120 allotted for category1 and category 2.
